

Simple and Exquisite for Minimalist Living

GW2470H

Everyday Enjoyment for Leisure and Business

Infused with exquisite simplicity, the all-new GW2470H is a perfect embodiment of the “less is more” minimalistic way of modern living. A treat for the eye, this incredible display is designed and built with high-performance features, dual HDMI connectivity for exceptional image details and colors and BenQ’s eye-caring technology. This is all to give you the best viewing experience for work and play.

Because it matters

BenQ VA LED Monitor GW2470H

Designed Simply for the Ultimate Sophistication

A perfect embodiment of "less is more", the GW2470H is exquisitely crafted and refined to complement minimalist living. Whether it's the hairline surface treatment or the shiny black square embellishment on the stand, every design detail of this monitor reflects the subtlety of minimalism at its finest. Turning on the GW2470H, you'll also find all the unnecessary burdens to your eyes stripped away by BenQ's exclusive eye-caring technologies, leaving you with sheer visual pleasure of striking colors and definition from every angle delivered by a high contrast of 3000:1 and VA LED technology.

T-shaped Base

Hairline Surface

Patterned Back

ZeroFlicker Backlight for Visual Pleasure

The GW2470H is upgraded to eliminate flickering at all brightness levels, effectively reducing eye fatigue.

Low Blue Light Mode

Every Monitor produces a strain of blue spectrum light that is one of the critical causes of eye damage, eye strain, headaches and sleeping disorders. BenQ's unique Low Blue Light technology is designed to deal with the everyday problem of blue light exposure and allows a healthier time spent in front of your computer. Switch to one of the four preset Low Blue Light Modes from OSD hot key (Multimedia – 30% reduction, Web-surfing – 50% reduction, Office – 60% reduction, Reading – 70% reduction), and reward your eyes without having to lose the visual enjoyment.

3,000:1 Native Contrast Ratio for Color Depth and Definition

Featuring an ultra-high native contrast ratio of 3000:1, the GW2470H adds incredible color depth and definition to darkened and complex visuals. Everything you see – from the brightest white to the deepest black – is perfectly rendered to bring images to life.

178°/178° Wide-Viewing Angles

VA panels come with an ultra-wide viewing angle of 178°/178° from left, right, above and below. With sharper details, higher contrast and truly authentic colors; viewing, as you know it, has just gotten easier!

Product Name	GW2470H
