

RP840G | 4K Interactive Flat Panel

Features

- 84" 4K Ultra-HD interactive display
- Up to 10 touch points
- Multiple operating systems supported
- Display note Software included

Highlights

Adopting an open system coupled with interactivity, BenQ delivers a future proof system with the RP-series. The RP-series large-screen display utilizes LED backlighting to deliver environmental and functional benefits. Featuring a 4K2K resolution display model built with two 10W speakers, and up to 10-points of touch recognition, the RP-series enhances the interactive experience.

Up to 10-Points Touch Technology

An advanced touch screen not only provides a responsive, high-precision interface even for writing, but it enables multiple people to interact and collaborate simultaneously. By making the most use of the expansive screen area, increasing participation, and stimulating enthusiasm, RP840G genuinely realize the full potential of IFP technology

Supports Popular Operating Systems

The RP840G now supports multiple, popular platforms. The RP840G offers seamless integration. Users will no longer need additional drivers for installation - users can simply plug & play. The plug & play feature is compatible not only for Windows, MAC, or Linux but also for Chrome OS users. This feature delivers flexibility for any integrator.

Anti-Glare Glass Design

Experience long lasting comfort in the classroom. The RP840G was specifically designed to reduce visual interference caused by glare. The anti-glare design prevents light reflection common to classrooms.
