

Add a Touch of Simple Sophistication to Your Modern Home Décor

VZ2470H

REVOLUTION EYES MONITOR TECHNOLOGY

The BenQ VZ2470H AMVA+ monitor is embedded with a sophisticated narrow bezel design on the outside and stunningly rich colors on the inside. Together with ZeroFlicker and Low Blue Light technology, the VZ2470H monitor is easy on the eyes while optimizing productivity and creativity.

Because it matters

BenQ LED Monitor VZ2470H

Designed to be Easy on the Eyes

BenQ, a world-leading brand in LED visual technology and the creator of the world's first VA LED monitor, has taken the lead to create the VZ2470H

VA LED monitor.

Oval Stand

Back

Slim Bezel

Ultra-Slim Design for Boundless Views

Visually stunning inside and out, the BenQ VZ2470H is designed to enhance your viewing experience like never before. Let your eyes feast on the impeccable view enabled by the edge-to-edge (E2E) ultra-slim bezel design and superior image performance.

VA Panel Boasts An Ultra-High 3000:1 Native Contrast Ratio

The display panel is pivotal to the picture quality. The VA panel delivers unsurpassed true black so the image is naturally richer and multidimensional. An ultra-high native contrast ratio of 3000:1 brings outstanding definition even from dark shadows to the most detailed images, making viewing vibrant colors and the most discrete details easy on your eyes.

Superior Response Time

Enjoy high dynamic videos without ghosting or other artifacts with 4ms GTG response time.

REVOLUTION EYES™

MONITOR TECHNOLOGY

ZeroFlicker Backlight for Viewing Comfort

Conventional LCD screens flick 200 times per second. Your eyes may not see flickers, but can certainly feel them. The ZeroFlicker technology eliminates flickering at all brightness levels and effectively reducing eye fatigue. Free your eyes from flickers by switching to ZeroFlicker monitors and let your eyes do less work.

Low Blue Light Mode

Every monitor produces a strain of blue spectrum light that is one of the critical causes of eye damage, eye strain, headaches and sleeping disorders. BenQ's unique Low Blue Light technology is designed to deal with the everyday problem of blue light exposure and allows a healthier time spent in front of your computer. Switch to one of the four preset Low Blue Light Modes from OSD hot key (Multimedia – 30% reduction, Web-surfing – 50% reduction, Office – 60% reduction, Reading – 70% reduction), and reward your eyes without having to lose the visual enjoyment.
