BenQ BL2405HT LED Monitor

Designed For Business Professionals

BL2405HT

Build with an LED backlight panel, the stylish BL2405HT comes with an ultra-high dynamic contrast ratio of 120,000:1, 16:9 100% dot-to-dot image quality, and BenQ's exclusive Flicker-free technology and Low Blue Light Mode to offer you the best viewing quality at all times.

Enjoyment Matters

BenQ LED Monitor BL2405HT

A Win-Win Decision for Mutual Benefits

The BenQ BL Series is designed with computer ergonomics in mind to add comfort and flexibility to your everyday work – boosting productivity and efficiency at the same time!

Designed for business environments, the BenQ BL Series of professional monitors is an essential part of your solutions to minimize total cost of ownership and maximize staff productivity – a win-win decision for the benefits of all.

Flicker-free Backlight for Visual Pleasure

The Flicker-free technology eliminates flickering at all brightness levels and effectively reducing eye fatigue. Conventional LCD screens flicks 200 times per second. Your eyes may not see flickers, but can certainly feel them. Free your eyes from flickers by switching to Flicker-free Monitors and let your eyes do less work.

Low Blue Light Mode

Every Monitor produces a strain of blue spectrum light that is one of the critical causes of eye damage, eye strain, headaches and sleeping disorders. BenQ's unique Low Blue Light technology is designed to deal with the everyday problem of blue light exposure and allows a healthier time spent in front of your computer.

Switch to one of the four preset Low Blue Light Modes from OSD hot key (Multimedia – 30% reduction, Web-surfing – 50% reduction, Office – 60% reduction, Reading – 70% reduction), and reward your eyes without having to lose the visual enjoyment.

Height Adjustment Stand (HAS)

The HAS allows you to find the best viewing angles for personal work or screen sharing with an extensive range of monitor adjustments – height, tilt, pivot, stroke and swivel. The screen bottom can be 110mm from the base now.

Perfecting Your Audiovisual Enjoyment with Speakers (2W x 2)

Whether you're listening to music or watching your favorite film, simply turn on the speakers to experience the audiovisual fun

12M:1 DCR for Depth and Definition

The BL2405HT comes with an ultra-high dynamic contrast ratio of 12M:1 to add color depth and definition to darkened and complex visuals, so that everything you see – from the brightest white to the darkest black – is perfectly rendered to deliver the most incredible picture performance.
