

## BenQ Digital Camera C1030 Eco/ C1035 / C1230

### Auto Scene Mode

Automatically detects 8 different types of scenes and chooses an appropriate one out of the following 8 scene modes: Landscape, Portrait, Backlight, Backlight Portrait, Night Scene, Night Portrait, Macro, and Sunset. All you have to do is press the shutter and the Auto Scene mode will do the rest for you.

### Love Portrait

Want to take a good photo when there are just two of you? Love Portrait mode will take a shot when detecting at least two faces.

### Blink Detector

Blink Detector alerts you when a subject has blinked, allowing the shot to be retaken immediately or saved according to your preference.

### Smile Catch

It's easier to detect and catch each smile automatically when you turn to the Smile Catch mode and press the shutter.

### 5cm Macro

With 5cm Macro, it will automatically scan and switch to the Macro mode when you are taking close-up photos of flowers or small objects. So every photo is in focus.
