

BenQ Digital Camera E1020

10 Megapixels / 3x optical zoom

The BenQ's new DC E1020 features 3x optical zoom, 10 megapixels and large 2.7" screen. And, its on device battery charging makes charging more convenient—via an adapter or an USB connection with PC or NB. Always ready to take the perfect picture. Also available in black and silver.

AF-Area Selection Mode

Allow you to manually select a particular AF point to focus. With this, you can easily focus on off-center subjects without reframing the shot. It is convenient especially when using a tripod.

M-Burst Mode

The M-Burst mode captures a series of shots into one single image, 2x2 (4 shots), 3x3 (9 shots) or 4x4 (16 shots). It's a great way to capture a continuous motion like a child's first steps, a pet's best tricks, or swinging a golf, etc.

one image: 2x2(4 shots)

Smart Focus

With Smart Focus, it will auto scan and switch to macro mode when you are taking close-up photos of flowers or small objects. So, every photos are in focus.

Smile Catch Mode

Catch every smile automatically when turning the smile catch mode.
