

BenQ Digital Camera E1220

The BenQ E1220 comes with 12MP and 3x optical zoom and equips with handy features for capturing perfect moments

Smart Scene Detection

Automatically detects 5 different types of scenes and chooses the appropriate camera settings: Night scene, Landscape, Normal & Macro, Portrait and Backlight Portrait. All you have to do is to press the shutter and the Smart Scene Detection mode will do the rest for you.

Pre-Composition Mode

When asking someone else to take photos for you, but the photos always don't come up right? With BenQ's Pre-composition mode, you can compose the background you want first and have that person to record a shot against your original background—a semi-transparent image on the screen. You will be sure to always get photos you wish for.

Blink Detector

Blink detector alerts you when a subject has blinked, allowing the shot to be retaken immediately or saved according to your preference.

Love Portrait Mode

Want to take a good photo when just the two of you? Love Portrait mode will wait until at least two faces are in a confined area and take a shot.
