BenQ
Smart Signage

ST550K

4K2K UHD Resolution
Unparalleled Clarity for the Pickiest Eyes

An ultra high definition resolution of 4K2K (3840x2160) offers not only the most exquisite image details for the best viewing experience but also four times more information and workspace compared to a 1080p full HD display to boost efficiency and productivity.

X-Sign: Content Management Made Smarter

The X-Sign signage app helps you customize, edit, manage and play what's to be showcased on your own, from your latest advertisement to captivating contents. So you can engage your customers in an instant.

• Instant plug-and-play with built-in X-Sign app
• Various templates for hassle-free content editing
• Remote control included for easy control

Custom Android™ OS
Display by Plug-and-Play

The ST550K's custom Android OS comes with various useful apps for content display, from WPS Office to Web Browser and Media Player. This closed platform puts you in full control over the ST550K, ensuring the proper use of the display by preventing downloads and use of unauthorized apps. This in turn minimizes unanticipated damages or breakdowns.

• USB Playback to access and play back multimedia files directly from USB flash drives, no need for PC connection or complex cable hassles
• Mobile High-Definition Link (MHL) for flawless streaming of mobile contents from MHL-equipped smart devices
• QCast-Supported Wireless Display* for mirroring digital contents stored in computing and smart devices onto the big screen

*Available with the optional purchase of the QCast dongle

Multiple Display Administrator (MDA)
Remote Control with Failure Alert System

Control and manage multiple displays simultaneously through your local network or serial port. Besides offering great convenience, MDA also enables powerful functions such as scheduling system integration and email notifications of arising issues.
