BenQ EW2770QZ

Brightness Intelligence Plus Technology for Better Video Enjoyment and Eye Care

Reduce Eye Strain in any Lighting Environment

The ambient light sensor of Brightness Intelligence Plus Technology detects ambient light levels and the color temperature in your viewing environment and automatically adjusts on-screen brightness and color temperature for your viewing comfort.

Colors Stay Original for a Picture Perfect Content

Brightness Intelligence Plus Technology detects the intensity of your content and performs dynamic brightness adjustments to ensure that bright scenes don't get overexposed while enhancing details in dark areas to maintain a visible level of clarity.

Don't worry about colors on the screen being compromised due to dimming on-screen brightness. Brightness Intelligence Plus Technology enhances the hue and saturation of colors while ensuring a smooth color gradation so that colors stay true to original with vibrancy.

A Stylish and Customizable Design for any Interior

4-side Ultra-slim Bezel Monitor

Visually stunning, the BenQ EW2770QZ Video Enjoyment Monitor with an elegant slim profile and ultra-slim bezel design beautifully complements any interior space.

Ultra-slim Bezel Design 4-Side E2E

VESA Wall Mount Compatibility

EW2770QZ is the first BenQ Video Enjoyment Monitor in the EW series to have a VESA wall mount pattern on the rear of the cabinet.

Caring for Your Eyes

Flicker-free Technology

Stable feedback technology prevents the harmful effects of flickering from tiring or damaging the eyes.

Low Blue Light Mode

Low Blue Light technology is designed to filter out harmful blue light, effectively diminishing eye fatigue and irritation. Easily switch to Low Blue Light modes from the OSD hot key (Multimedia, Web-surfing, Office, and Reading) and reward your eyes without having to lose the visual enjoyment.
