Everyday Enjoyment for Business and Leisure

BenQ LED Monitor GL2055

GL2055

Add a touch of enjoyment to your life!
The GL2055 brings together outstanding image quality and high performance features
in a stylishly fashioned body – making the latest visual technology
an integral part of your home and workplace décor.

Enjoyment Matters

Designed to Please Your Eyes

The GL2055 is designed with layers of visually rich elements that are perfectly arranged to add harmony and balance to your workstation and living space. The boldly sculptured countenance is complemented by the gentle terraced contour and oval base stand while the front bezel is textured to comfort your eyes. Now, there is a monitor that is truly sophisticated inside and out.

LED LED Leads the Way

LED backlighting offers significant advantages over the CCFL technology used in older LCD monitors. These advantages encompass not only performance metrics such as higher dynamic contrast, no light leakage and flicker-free, but also environmental factors, mercury-free and power saving 14.3%.

Senseye® Technology

Experience the truest colors of the world with the BenQ Senseye® Human Vision Technology. With the help of its six proprietary calibration techniques, Senseye® 3 delivers only the best viewing quality in each of its six pre-set viewing modes –Standard, Movie, Game, Photo, sRGB, and Eco –with the Eco Mode especially designed to save power and money.

12M:1 DCR for Depth and Definition

The GL2055 comes with a high dynamic contrast ratio of 12M:1 to add color depth and definition to darkened and complex visuals, so that everything you see – from the brightest white to the darkest black – is perfectly rendered to deliver the most incredible picture performance.

Win 7 compatible

The GL2055 has passed Windows 7 certification and is fully compatible with Windows 7 color systems. Plug in the GL2055 to your computer, and Windows 7 will recognize it instantly, making setup and connection effortless.
