

BenQ BenQ Camcorder S21

Ready for a late-night show!

There's no need to put away the S21 camcorder after the lights go out or the sun goes down.

With its amazing night vision feature, you can capture spectacular nocturnal scenes like an after-hours cityscape in Full HD video.

BenQ Camcorder S21

Night vision

Ever tried to film a memorable scene or get a photo of a special moment, but ended up with a shadowy muddle because there simply wasn't enough light? With the S21 you can capture any scene, any moment—in any light.

with Night Vision

without Night Vision

Motion detection

To ensure a moment is never missed, the S21 boasts Motion Detection to auto-start recording as soon as the subject moves.

Full HD video and fabulous photos

Shoot Full HD video and 16-megapixel* still images to give your movies and photos a professional sheen. A spacious 3" touch-screen display for realistic previews and delightfully intuitive controls makes it all easy.

* Using software interpolation.

Flexible battery power

In addition to a rechargeable lithium ion battery, the S21 can be powered with ordinary AA disposable batteries. That means you can film and photograph* as long you want even when you're outdoors or otherwise away from an electrical outlet.

* Night vision feature not available when device is powered using AA batteries.

Dual SD card slots

For extra storage capacity and added flexibility, the S21 includes not just one but two SD card slots. If one SD card is full, no problem. Just use another in the second slot, to double the capacity and double your fun.
