

BENQ E1000

Digital cameras that have been launched in the market had seldom designed for men. They were slim, pretty, delicate, great in texture and extremely sophisticated. Yet, somehow it was just not that right, as if a piece of something is missing.

Men were more often perceived as function or technology oriented, but not much of choices about cameras for them to pick when the term of style comes into the picture. BenQ is proudly introducing its new DC E1000, a camera that represents the character, personality and masculinity of manhood.

Enjoyment Matters

BENQ Digital Camera E1000

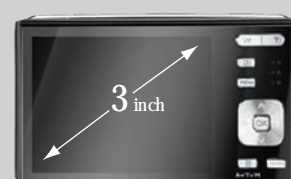

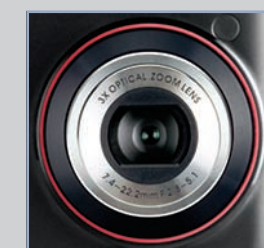

Let's talk about Metal

Metal is the primary element symbolized the manhood, so the BenQ's Lifestyle Design Center designers cleverly bonds this element into the camera and you going to take with you everyday. The new E1000 has enclosed a solid metal bar with anode brushing treatment on the front of the camera, along with matted black finishing case to boost up the overall taste.

It's red. It's the passion towards life

While sensing the chill when gripping the E1000, you can feel the pump pump blood inside your heart. It's the passion, a passion towards photography and the needs to record all the best moment in life. That red, diamond-cut ring on the lens flows and glows when light reflects, representing the zealous and fervent hidden beneath the cold. 10 mega pixels CCD and powerful lens ensures high-contrast and color saturation images and details are sharper and clearer for all to see.

3 inch LCD screen

Seamless border, imposing view

Seamless is the trend, and so does BenQ E1000. The seam less 3 inch LCD screen that elegantly in fix on the back of the camera body presents a clean-cut, post modern, minimalist style. Unlike other cameras, E1000 uses one-piece burnish transparent acrylic to cover its back. Not only the acrylic increase the brightness when viewing images, but also hard enough to resist scratch and attrition from daily usage. Mirror reflection accompany by mysterious black coating projects a touch of noble sense and the breath of mankind. Yes, the less is more.

Face-Tracking function

Face-Tracking function

E1000 can automatically detect and track up to 9 human faces and able to quickly focus on them to ensure the faces are perfectly presented in both color tone and clearness.

Face-Tracking off

Face-Tracking on

Shake-Free function

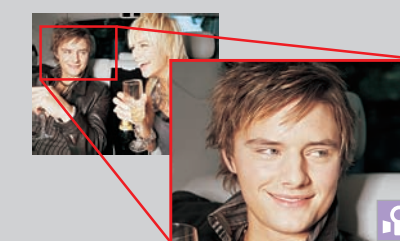

You will no longer be troubled by those blurred photo caused by unexpected hand shaking. The Shake-Free hotkey located right next to the shutter button can activate the function under any scene mode. Whenever you feel unsatisfied with the blurry image that you have encounter to, just press the button and try again. It will boost up the Shake-Free result and reward you with sharp and clear images.

Normal mode

Shake-Free mode

Optical zoom in video recording

BenQ's new E1000 allows you to record extremely smooth, full-motion video clips with ease. It offers you the great video clarity of VGA - 640 x 480 pixels with frame rates of 30 fps (frames per second). The optical zoom in video recording mode allows you to zoom in and out for a sharp and clear view during the recording.

3:2 and 16:9 output size

E1000 provides you two output sizes to choose from when taking the photos. 3:2 ratio trims the edge for easy printing option while 16:9 ratio supports the direct display on TV or wide screen.

3:2

16:9

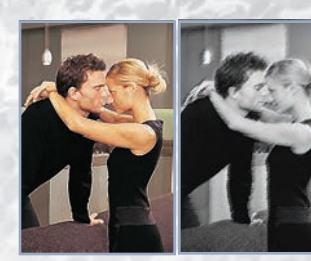

12 Burst Capture

12 Burst Capture in just 1 second

What if you want to see how your swing goes on the golf court or in practice range? BenQ's E1000 comes with this unique function that helps you to capture 12 photos in one second. Any other fraction of a second you would like to catch?

Photo frame and special image effect

Personalize your photos by adding the frames that comes with E1000. What's more, try on the oil painting and sketch scene mode. You will be amazed by how the images can become.
