Everyday Enjoyment for Leisure and Business

GL2023A

Add a touch of enjoyment to your life!

The GL2023A brings together outstanding image quality from LED panel technology and high performance features in a stylishly fashioned body – making the latest visual technology an integral part of your home and workplace décor.

Enjoyment Matters

BenQ LED Monitor GL2023A

Designed to Please Your Eyes

Blending solid reliability with must-have features, the GL2023A specifically aims to make 16:9 viewing more affordable and enjoyable than ever!

LED Leads the Way

LED backlighting offers significant advantages over the CCFL technology used in older LCD monitors. These advantages encompass not only performance metrics such as higher dynamic contrast, no light leakage and flicker-free, but also environmental factors, mercury-free and power saving 14.3%.

12M:1 DCR for Depth and Definition

The GL2023A comes with an ultra-high dynamic contrast ratio of 12M:1 to add color depth and definition to darkened and complex visuals, so that everything you see – from the brightest white to the darkest black – is perfectly rendered to deliver the most incredible picture performance.

Superior Response Time

Enjoy high dynamic videos without ghosting or other artifacts with 5ms GTG response time.

Eco Mode for Higher Energy Efficiency

This intelligent mode reduces at least 37% of the power consumed by document viewing, Internet browsing and emailing and up to 44% of the power consumed by gaming.

Windows® 8 compatible

The GL2023A is fully compatible with Windows 8 systems. Plug in the GL2023A to your computer, and Windows 8 will recognize it instantly, making setup and connection effortless.
