Ultra-Fast 1ms GTG Response Time

Control your gaming destiny and don't leave it in the hands of slow display. Blistering fast response time of 1ms GTG means virtually unnoticeable input lag for console games.

• without 1ms GTG

• with 1ms GTG

An Ultra Smooth View

Take advantage of precious milliseconds during the game! To ensure nearly zero delay in every battle, the RL2755HM and RL2455HM give you ultra low input lag for perfectly synchronized, virtually latency-free action with the stick motion.

Dual HDMI for Added Flexibility

Equipped with two HDMI ports, the RL2755HM and RL2455HM allow you to connect your game console and another HDMI device at the same time.

Console Game Mode Colors

RL2755HM and RL2455HM are meticulously developed to bring out every color, shade and tone with optimized clarity and precision. This is all to help you thrive and achieve peak performance in console gaming.

Black eQualizer for Total Visibility

To give you unprecedented level of control and visibility for console gaming, the RL2755HM and RL2455HM are built with the Black eQualizer color engine technology to brighten dark scenes without over-exposing the bright areas. This helps preserve vital details, enabling you to spot your enemies easily in critical combat and react quickly in any situation.

Gaming-comfort Flicker-free Technology

Co-developed by pro gamers, the RL2755HM and RL2455HM are upgraded to eliminate flickering at all brightness levels, effectively reducing eye fatigue herewith providing extreme comfort for even the most hardcore gamers after long hours of play time. The gaming focus Flicker-free Technology makes BenQ Gaming Monitor an epic weapon.

The RL2755HM and RL2455HM are designed to give you the most fluid console gaming experience. The professional console gaming monitors offer high responsiveness, low input lag and the best visibility with the latest features: 1ms GTG response time, dual HDMI, the Black eQualizer and image quality supported by BenQ's world-leading color expertise.
